## How To Create Deep Links

# Index

— Creating DeepLinks .....	3
----------------------------	---

## Creating DeepLinks

Deeplinks are to be used to promote special fares on your websites. Review these statements below and if they apply to your business model then proceed with the instructions to create deeplinks.

- I want to set various flight deep links (see mockups) inside containers located in various e-Power pages so that end-users can click on them and get redirected on flight, hotel or car results page.
- I want to set a dynamic recurring date for each flight, hotel or car deep link so that each deep link always works, even if I have no time to configure them.
- As an end-user I want to click on a flight, hotel or car search deep link so that it redirects me to the corresponding results page.

 <p>Miami to Los Angeles on AA</p> <p>200.00 USD</p>	 <p>London to Russia on British Airlines</p> <p>670.00 USD</p>	 <p>New York to Paris on Air France</p> <p>450.00 USD</p>
---	---	--

There are two ways to create a DeepLink.

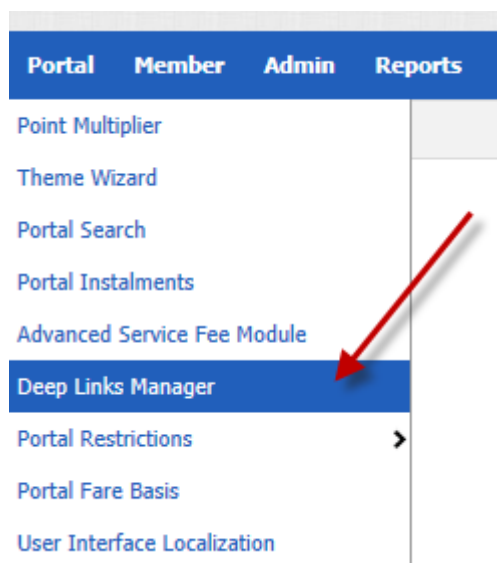

1. Manage the DeepLinks within the e-Power Admin Tool and add them on the e-Power UI. The detailed steps are shown on the following pages.
2. Embed the DeepLink using href directly onto your main webpage. An example DeepLink is shown below. You will need to replace *YOUR PORTAL* with your own portal name.

<https://www-amer.epower.amadeus.com/YOUR PORTAL/#Page=Result&Method=Search&AdtCount=1&From=DEN&To=SEA&QFrom=A&QTo=A&DepartureDateDL=1;d;Thu&ReturnDateDL=1;d;Wed&PrefAirline1=AS&ProviderList=OnlyAmadeus&FlightType=RoundTrip&DepartureTime=00%3A01&ReturnTime=00%3A01&DirectFlightsOnly=true>

1. Login to the Admin portal with your Admin Credentials. Select the Staging View.

<https://admin.epower.amadeus.com/AdminLogon.aspx>

2. Click on Portal > Deep Links Manager

3. Select the Type of search you will be creating the deeplink for (Flight, Hotel or Car)
4. Enter the data for the fields needed for your deeplink.
5. Click Add
6. Click Apply Settings.

### Deep Links Manager

**Deep Links Criteria**

Portal :

Type of search :  Flight search type :

From :  To :

Departure on : ☒ Mondays ☐ Tuesdays ☐ Wednesdays ☐ Thursdays ☐ Fridays ☐ Saturdays ☐ Sundays

Departure minimum :  Day(s) after today

Return on : ☒ Mondays ☐ Tuesdays ☐ Wednesdays ☐ Thursdays ☐ Fridays ☐ Saturdays ☐ Sundays

Return minimum :  Day(s) after departure date

Provider Type :

Preferred Airlines :

Calendar Search : ☒ (+/- 3 days)

Direct flights only : ☐ (recommended for quicker search)

Description :  [Other Languages](#)

Price to indicate :

Image URL :

Order Number :

Group Code :

Status : ☒ Is active

[Apply Settings](#)

[Update](#) [Delete](#) [Cancel](#)

**RESULTS TABLE**

Description :

Group Code :

Type of search :

[Reset Filter](#)

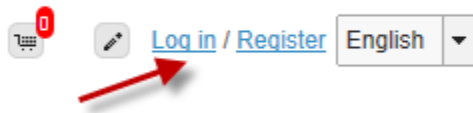

[Filter](#)

**Inserted Records**

	Group Code	Description	Price	Type Of Search	Active
<input type="checkbox"/> Edit	MIALAX	Miami to Los Angeles on AA	200.00 USD	Flight	<input checked="" type="checkbox"/>
<input type="checkbox"/> Edit	LHRVKH	London to Russia on British Airlines	670.00 USD	Flight	<input checked="" type="checkbox"/>
<input type="checkbox"/> Edit	JFKCDG	New York to Paris on Air France	450.00 USD	Flight	<input checked="" type="checkbox"/>

7. Login to the Portal site with your Host Admin credentials

<https://staging.epower.amadeus.com/YOURPORTAL/>

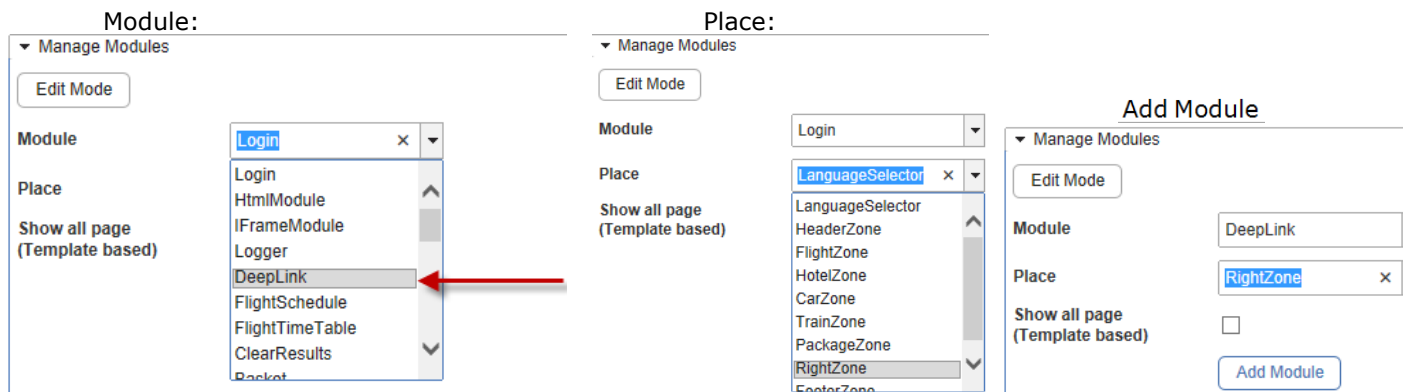

8. Click Show Host Admin

9. Click Edit Mode
10. Module: Click on the drop down arrow. Select DeepLink .
11. Place: Select the zone you would like to add the DeepLink to.
12. Click Add Module.

13. Locate the DeepLink Module. Click Edit.
14. Enter the fields. The remaining screen captures below describes what each section should include.
15. Once all of the fields have been filled. Click Close
16. Click Edit Mode to return to your portal.
17. To publish these to production follow the How to Backup and Publish your site document.
